

The Branding

All branding for the event was carefully designed by Level 3 Foundation Diploma in Business student, Linda Kiselova. On the third night, she won an award for her creativity!

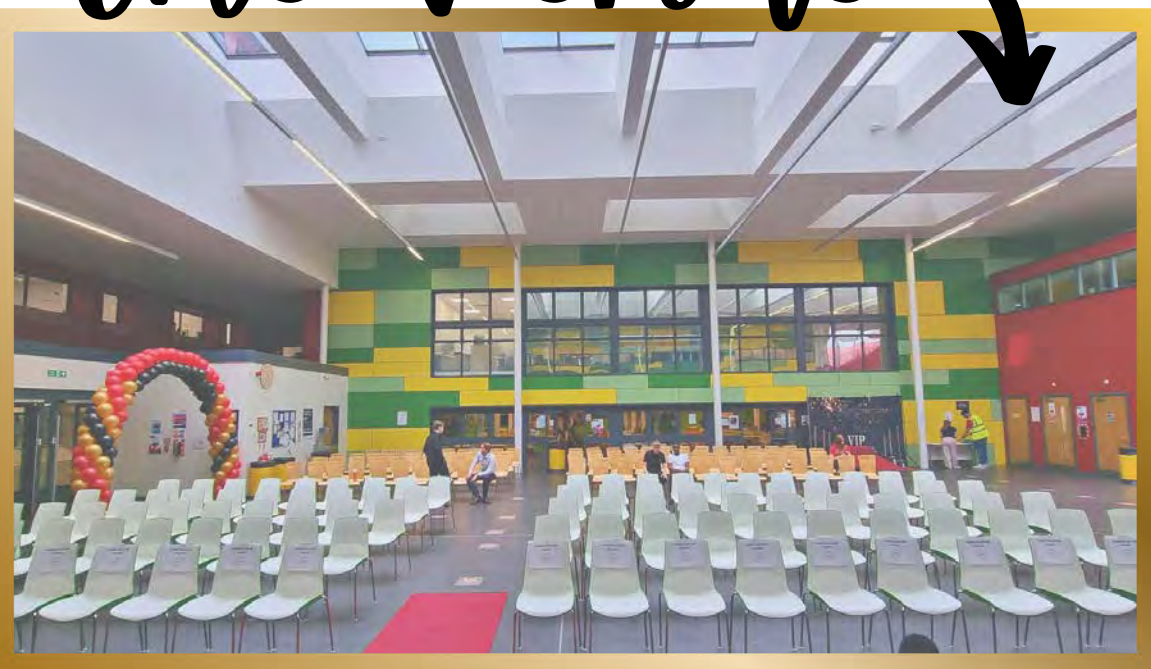

A student led event, Level 3 Foundation business students were tasked with organising three student celebration evenings, organised by directorate. Learners were given specific roles and planned and prepared the whole events, working on the nights to ensure they went smoothly.

"I am proud beyond words to be able to celebrate so many students' hard work, dedication and exemplary approaches to life and studies, in one week."

"We have received so many student nominations shining the spotlight on some truly exceptional stories of success, determination and overcoming adversity."

"Throughout the year I've seen a lot of impressive work and creative minds at large in the classrooms I have visited, all of which is testament to the direction and great leadership of our teachers who frequently go over and above to help our students achieve their very best." – Andrew Cropley (Principal and Chief Executive)

The Future?

The success of the events has led to the creation of a business-led learning company to host events in the college all year round. We are launching The Eventors in Autumn 2022.
