

Hi

I have just finished the first year of my Level 3 BTEC Sport and Exercise science course. Overall, the experience over the past year has been extremely positive with no real issues occurring.

From the first moment I applied I could tell that the college was very accommodating as I had a talk to one of the leaders there as I wasn't sure which course to pick and they gave me some advice which led me to being on this course today.

I found enrolment week very helpful as it helped to familiarise me with the college surroundings and gave me the chance to speak to and get to know some of my new friends. From the first official day of college I have thoroughly enjoyed most of my time here, the tutors are extremely helpful and will be able to help you if you have any worries or concerns.

My personal experience of my course is that I thoroughly enjoy all the practical session that we have as well as guest speakers because they help us to gain a first-hand perspective of different situations. I like my course timetable as although I have all my days there full, I also get two days off to do my own activities.

Yours sincerely

Callum F
