

Hi there

I'll be honest, before starting my Level 2 course in Sports Leadership I was worried about meeting my new teachers and students on the course. I was particularly worried about making friends. I needn't have worried because the staff are both friendly and helpful and now I have made some really good friends!

My favourite lesson was when we met some of the students from Foundation Studies - we asked them what their favourite sports were then helped them to improve their skills while having good fun.

My advice would be stay calm and be yourself. Overall West Notts is a great place to learn!
