

USING MATHS IN...

BRICKLAYING

WHAT YOU'LL NEED TO KNOW...

It is essential to have good maths skills to be successful within the construction industry. You will need these skills to work to scale from drawings, calculating amounts and costs, producing programmes of work, and to set out and build structures.

Without these skills you could be limiting your opportunity to progress in your career.

A bricklayer, can earn salaries of approximately **£26,000** to **£30,000** a year.

So don't miss out on your GCSE and functional skills maths classes identified on your timetable.

USING ENGLISH IN...

BRICKLAYING

WHAT YOU'LL NEED TO KNOW...

Developing your English will enhance your ability to read and interpret a variety of technical information associated with the construction industry. It will also enable you to understand contractual documentation and communicate effectively with clients and members of the building team. These skills are important in promoting a professional image and gaining work.

Without these skills you could be limiting your opportunity to progress in your career.

A bricklayer, can earn salaries of approximately **£26,000** to **£30,000** a year.

So don't miss out on your GCSE and functional skills English classes identified on your timetable.
