

Dear student

It was my first year at college and I never knew that it would be this great and fun.

I was a bit worried at day when I had to fill my information in and get my lanyard, but I made it through. My first induction day, I was so scared I thought that I was going to miss the bus, but I saw the college students and just followed them.

When I arrived at college, I didn't know where to go but eventually I found it. I stayed in the group from my course in the canteen. Then we went to the classroom and found out about people and made good friends.

My first impression of college was not to get lost and find where to go so I stayed in a group of mates and walked with them. I had excellent staff supporting me. The group I was hanging around with, we managed to make a 5/6/11 a side team and we had a chance to play with West Notts university students and Level 3s and we beat them.

All I want to say is that it's loads better than you think it's going to be and you'll have the best time of your life at college with the best students. I am coming back next year.

Yours sincerely

Kiril Voitiukevicius
