

Keeping you safe

Lots of people are getting poorly at the moment because of a new illness called coronavirus

Your Nurse will still come to visit you to help you

We want to **stay well** and not get poorly.

To **keep you safe** we might wear some **protective clothing**. This might make us look different.

We might wear **plastic gloves**

And an **apron**

And a **face mask**

This will help you and other people to **stay well**
